Review Booster Installation Guide (The Tooth Ferry)

Note: This javascript plugin depends on jQuery, so please make sure your site has jQuery included.

If you don't have jQuery included on your site, please include this snippet first:

```
<script type="text/javascript" src="https://code.jquery.com/jquery-1.11.0.min.js"></script>
```

1. Place the following snippet in the HTML header after inclusion of jQuery library

```
<script type="text/javascript" src="https://www.doctible.com/v1/doctible.js"></script>
<script type="text/javascript">
  jQuery(function($) {
    $('#doctible-review-widget').reviewWidget({
      id: 'the-tooth-ferry-friday-harbor-wa',
      format: 'full'
    });
  });
</script>
```

2. Copy the following div element to where you'd like to place the Widget

```
<div id="doctible-review-widget"></div>
```

3. Save and refresh the page, and that's it!

(Optional) 4. If you like to custom the look & feel of the widget, below

are some available options:

```
{
  format: 'full', // Available formats are 'vertical', 'horizontal', and 'full'.
  ratingStarColor: 'green', // css color for rating stars
  ratingEmptyStarColor: 'black', // css color for empty stars
  titleText: 'Alternative Review Widget Title', // alternative title text
  titleBGColor: 'yellow', // css color for background of title bar
  titleColor: 'blue', // css color for text of title bar
  buttonColor: 'red', // css color for left/right buttons
  linkColor: 'purple', // css color for source/link
  locationNameColor: 'black', // css color of location name in reviews summary
  showSummary: false // Option to show full summary for vertical and horizontal formats
}
```
